

Title	Description	Segment	Price	Device
115-in-1 Math Solver: Algebra, Geometry, Statistics, & Trig Calculator	Solve your maths problems! 115 solvers which calculate solutions to math problems in algebra, analytic geometry, arithmetic, geometry, matrices, statistics, and trigonometry. Solvers range from complex numbers, linear and quadratic equations, through arithmetic; geometric surfaces, volumes and perimeters; geometric series; statistical densities and distributions. Tag favorite solvers for frequent use!	Secondary	Paid	iPhone
A Montessori Approach to Math - Hundred Board		Primary	Paid	iPad
Algebra Pro - Complete Workbook with ShowMe Lessons		Secondary	Paid	iPad
Algebra Touch		Secondary	Paid	iPhone/ iPad
AlgebraPrep: Equations, Inequalities and Problem Solving		Secondary	Paid	iPhone
AlgebraPrep: Factoring		Secondary	Paid	iPhone
AlgebraPrep: Graphing	Succeed in algebra: anytime, anywhere. Gain confidence in graphing, and achieve your math goals. A combination of practice tests, answer feedback and instructional videos provide an integrated approach to practicing and improving in algebra. The resources you need to practice, within a motivational structure, plus effective feedback and instruction.	secondary	Paid	iPhone
AlgebraPrep: Systems		Secondary	Paid	iPhone
Alien Equation		Secondary	Paid	iPhone
Area Calculator		Secondary/ HiEd	Paid	iPhone
BabyCounting		Primary	Paid	iPhone

Basic Math	Build up your foundation skills in maths! Working with a drill-and-practice methodology, the app covering basic mathematical skills like addition, subtraction, multiplication and division for children to practice repetitively and gain confidence. Varying degrees of difficulty, useful for adults also, to consolidate basic skills before moving on.	Primary	Free	iPhone
Basic Math Deluxe	Build up your foundation skills in maths! Working with a drill-and-practice methodology, the app covering basic mathematical skills like addition, subtraction, multiplication and division for children to practice repetitively and gain confidence. Deluxe version has keypad entry, timer and sound effects, visual feedback, progress report cards. Varying degrees of difficulty.	Primary	Paid	iPhone
Bert's Bag		Primary	Paid	iPhone
Bloomberg		Secondary/ HiEd	Free	iPhone
Bubbling Math		Primary	Paid	iPad
Calculator HD: Statistics		Secondary/ HiEd	Paid	iPad
Collins Revision Algebra		Secondary	Paid	iPhone
Collins Revision Geometry	Wide-ranging revision resource for GCSE maths. Contains 100 revision guide chapters, 400 practice questions, and over 40 video tutorials on perimeter, area, volume, shape, angles, Pythagoras, trigonometry, scales, measure, transformational geometry, vectors, constructions, loci, theorems and proof. Interactive animations, exciting video clips of students teaching a problem. Interactive assessment questions guide revision.	Secondary	Paid	iPhone

Collins Revision Number	<p>Wide-ranging revision resource for GCSE maths. Contains 80 revision guide chapters, over 250 practice questions, and over 30 video tutorials on number skills, fractions, decimals, percentages, powers, roots, reciprocals, surds, primes, LCM and HCF, ratio, speed, proportion and variation. Interactive animations, exciting video clips of students teaching a problem. Interactive assessment questions suggest trouble areas and guide revision.</p>	Secondary	Paid	iPhone
Collins Revision Statistics	<p>Wide-ranging revision resource for GCSE maths. Contains 40 revision guide chapters, 120 practice questions, and 24 video tutorials on statistics and statistical questions, data handling, averages, and probability. Interactive animations, exciting video clips of students teaching a problem, real-life examples of maths at work, worked exam questions. Interactive assessment questions suggest trouble areas and guide revision.</p>	Secondary	Paid	iPhone
Convert ~ the unit calculator	<p>A satisfying unit converter. Combines wide range of unit conversions with interface which selectively displays only relevant info, reducing clutter. Built-in calculator, a simple way to set your favorite units, currency conversion values updated live, and the "Disclosure Picker" for revealing unit names makes selection easier!</p>	Secondary/ HiEd	Paid	iPhone
Dreisatz-iP	<p>Your reliable companion for dealing with the Rule of 3. You are in the market, and know the price for 2 apples, but you want to buy 9. Instead of puzzling away... click on the app! Intuitively easy to use, saves you time in practical situations.</p>	Secondary	Paid	iPhone

Einmaleins	Makes multiplying child's play! An interactive multiplication table app. Arithmetic flashcards from 0x0 to 12x12, the multiplication tables from 0x0 to 12x12, tests of the tables, and timed tests, with speeds from easy to computing whizz-kid! Different ways of interacting with the tables enable the child to gain in confidence and fluency.	Primary	Paid	iPhone
Estudia las tablas	Makes multiplying child's play! An interactive multiplication table app. Arithmetic flashcards from 0x0 to 12x12, the multiplication tables from 0x0 to 12x12, tests of the tables, and timed tests, with speeds from easy to computing whizz-kid! Different ways of interacting with the tables enable the child to gain in confidence and fluency.	Primary	Paid	iPhone
Formulus Free - Formulas for Calculus	Handy for high school and college students taking Calculus and Differential Equations. Easy-to-navigate collection of key formulas and topics. Calculus section includes algebra and geometry, derivatives, graphing, hyperbolics, integrals, limits and continuity, matrices, series and sequences, trigonometry and vectors. Differential Equations section includes 1st and 2nd order linear equations and Laplace transformations.	Secondary	Free	iPhone
FracSolve		Primary / Secondary	Paid	iPhone/ iPad
Free Graphing Symbolic Calculator - PocketCAS lite		Secondary/ HiEd	Free	iPhone/ iPad
GeoBoard		Primary / Secondary	Paid	iPad
GeoSketch	Draw beautiful geometric shapes in real time. Just pick 3 numbers, and watch the app draw a spectacular image. Change numbers to see how shapes are modified - change colors and line thickness, save your image, and pause it in mid-creation. A tantalizing glimpse into the relation of numbers and space.	Primary	Paid	iPhone

Graphing Calculator	A high-resolution function plotter and scientific calculator. Quickly plot and trace multiple equations on the same graph. Customize keyboard to speed up entering equations. Find the exact (x,y) coordinates for roots, intersections, minimums and maximums using the trace mode. Supports graphing polar and parametric equations. Includes a powerful, easy-to-use scientific calculator.	Secondary/HiEd	Paid	iPhone
Graphing Calculator HD		Secondary/HiEd	Paid	iPad
Graphing Calculator+	Several calculators in one! A calculator replacement designed to be simple, usable and beautiful. App gives access to a graphic calculator, handwriting calculator, scientific calculator, quadratic and cubic equation solver, and system of linear equations solver. Elegant and intuitive interface. Graph up to 6 equations at a time and find their local minimum, local maximum & intersection points.	Secondary/HiEd	Paid	iPhone
iLiveMath Speed		Secondary	Paid	iPhone/iPad
iMathematics! 9 in 1		Secondary	Free	iPhone/iPad
InQuizitor GCSE Maths		Secondary	Paid	iPhone
InQuizitor Standard Grade Maths		Secondary	Paid	iPhone
Intro to Math, by Montessorium	Montessori techniques for learning and enjoying math. Includes Montessori classics like sandpaper sounds for learning to write number symbols, with stunning visual demonstrations to guide your child. Elegant red rods of different lengths, with pleasing sounds, for the child to arrange. From basic number recognition to sequences, order, spatial relationships, odds and evens, problem solving.	Primary	Paid	iPhone/iPad
IQ Gym - for iPad		Primary	Paid	iPad
iSetSquare™ - Geometry Drawing Triangle		Secondary/HiEd	Paid	iPhone

iTooch Maths CM2	Fun math course covering French CM2 school program. Extensive and wide-ranging math app, with 60 chapters covering the curriculum divided into numbers, calculation, measures and size, geometry and data. Over 4 500 activities, accompanied by an amusing cartoon character. Children can follow a preset lesson pattern, or choose subjects which interest them.	Primary	Paid	iPad
iTooch Maths CM2 Lite	Fun math course covering French CM2 school program. Extensive and wide-ranging math app, with 60 chapters covering the curriculum divided into numbers, calculation, measures and size, geometry and data. Over 4 500 activities, accompanied by an amusing cartoon character. Children can follow a preset lesson pattern, or choose subjects which interest them.	Primary	Free	iPad
Jungle Fractions (for iPad)		Primary	Paid	iPad
Kerboodle Revise Maths full		Secondary	Paid	iPhone
Kerboodle Revise Maths lite		Secondary	Free	iPhone
KidCalc 7-in-1 Math Fun (Including New Valentines Day and Birthday Themes)	Number recognition - with fun themed games! Teaches number recognition to children using flash cards, puzzle games, engaging images, animations and voice-overs. Lessons in addition, subtraction, multiplication and division, as well as learning numbers. Amusing themes, e.g. Birthday featuring presents, birthday cakes, cupcakes, candles and party hat icons, help hold attention.	Primary	Paid	iPhone
Kids Math Pad: Grade 1		Primary	Paid	iPad
Kopfnuss	Train your brain through fun math games! Practice basic arithmetic, the rule of three, percentage calculation, Roman and square numbers and calculating basic sums of money. Each exercise contains ten problems, and the level of difficulty can be modified. Play against time, alone, or with family and friends!	Primary	Paid	iPhone
Learning tables is fun HD		Primary	Free	iPad

Lernsnacks	<p>Bite-sized chunks of math revision.</p> <p>Improve and reinforce math skills with these short revision aids in German. Mathematical themes like percentages, interest calculations, binomials and quadratic equations are covered comprehensively.</p> <p>Numerous exercises for each theme, with step-by-step answers. New themes posted monthly. Ideal for revitalizing knowledge, preparing for classes or exams.</p>	Secondary	Free	iPhone/ iPad
Long Division Mathematics	<p>An app that aims to make long division simple.</p> <p>Allows users to solve a long division problem step by step, and animates all the steps. Selecting a correct move causes the figure to fly into place - a wrong answer will appear but not move. Students can reinforce computational strategies learned in class, with differing levels of support.</p>	Primary / Secondary	Paid	iPhone
Mad Math 2		Primary	Paid	iPhone/ iPad
Math Bingo		Primary	Paid	iPhone/ iPad
Math Cards	<p>Quick quizzes in basic math.</p> <p>Great for reinforcing knowledge, and improving math skill, with built-in lessons on arithmetic and percentages, and letter grades awarded for results. Add, subtract, multiply and divide cards, with 25 problems per card. Quick-touch response, or touch-and-hold for additional feedback.</p>	Secondary	Paid	iPhone
Math Drills		Primary	Paid	iPhone/ iPad
Math Match	<p>Math practice, with amusing rewards!</p> <p>Addition, subtraction, subtraction without negative numbers, multiplication and division. 3 levels of difficulty, with Advanced challenging even for adults! The reward for a successful answer? An animal picture appears, with a fortune slogan! Fun game layout, involving matching problem and correct answer among numerous tiles.</p>	Primary	Paid	iPhone

Math Ref	<p>All the formulas you need!</p> <p>A math reference app that includes over 1 400 useful formulas, figures, tips, and examples of the equations and concepts. Search and bookmark your favorite equations, ranging from algebra and trigonometry, to derivatives and integration, through differentials, probability and statistics, to physics, chemistry, and financial algorithms.</p>	Universal	Paid	iPhone/ iPad
Math Sheet Calculator	<p>The calculator you've been waiting for!</p> <p>Designed to be simple and user-friendly, the app moves away from mimicking electronic calculators and instead draws on the capacities of the iPad to present a sheet of paper on which you write your calculation. The result appears, accompanied by the history and results of previous calculations, so you can refer to your intermediate steps.</p>	Secondary/ HiEd	Free	iPad
MathBoard	<p>A math learning tool ranging from addition and subtraction through division, squares, cubes and square roots.</p> <p>Fun learning quizzes with a visually attractive traditional chalkboard.</p> <p>Mathboard offers extensive control of problem parameters, including the range of numbers to work with, the amount of questions to answer, and time limits per quiz.</p> <p>Quizzes can even be generated from just the wrong answers, giving focused learning directions.</p> <p>Features include:</p> <p>Random problem generation of up to 250 questions for each quiz.</p> <p>Intelligent "wrong" answer generation makes guessing more difficult.</p> <p>Problem Solver for addition, subtraction, multiplication and division problems.</p>	Primary / Secondary	Paid	iPad

MatheFormeln	Quick and easy reference tool for mathematical formulas. Well-structured, to make finding the formula you need rapid, with clear menus and navigation. Over 120 pages with not just the formulas, but explanations, definitions and examples, presented in an attractive and clear layout. Designed to be simple and effective.	Secondary	Paid	iPad
Mathemagics - Mental Math Tricks	Challenge your brain, and have fun at the same time! Learn to pull math answers "out of thin air", at lightning fast speed. Only the basic math skills of addition, subtraction, simple multiplication and division are needed to train in math tricks that will astonish your teachers - or your students! - and delight your friends.	Universal	Paid	iPhone
Mathematical Formulas	Straightforward, useful, mathematic formulas app. Simple, basic app which groups together the basic formulas in the areas of algebra, arithmetic, complex numbers, differentiation, geometry, integration, trigonometry, and matrices.	Secondary	Paid	iPhone
MathGirl Addition House		Primary	Paid	iPhone
Mathination - Equation Solver		Secondary	Paid	iPad
Maths GCSE Examstutor		Secondary	Paid	iPhone
Maths GCSE Revision		Secondary	Paid	iPhone
MathSpin3	Spin dials to find a math problem! Six apps in one, presented in an engaging way. Spin to pull up timed problems in the areas of addition, subtraction, multiplication, division, addition-with-multiplication and subtraction-with-division. Feedback sounds, variable timer, and you can also selectively spin to play at your own pace.	Primary	Paid	iPhone
Mental Maths	Improve your mental calculation skills! From elementary school level to challenges even for experienced calculators. Exercises cover basic arithmetic, division with remainder, percentage calculation, reading and writing Roman numerals, and common multiples and divisors. 4 difficulty levels, adjustable time limit, and image puzzles motivate you to keep practicing!	Universal	Paid	iPhone

meStudying: Algebra I	Focus on the algebra study area you need. App offers over 300 algebra questions, covering the entire scope of high school Algebra I. Detailed explanations for every question. Choose to review all answers, or only those you answered incorrectly. Sort by algebra topic or course module. Immediate feedback and score tracking.	Secondary	Paid	iPhone/ iPad
mobiBac Maths TES	Prepare for the maths test of the ES (Economic and Social) baccalaureate. Contains the official course, accompanied by key concepts and essential definitions, interactive tests, audio discussion of the basics, questions from the previous year with answers, standard questions with answers, and a general methodological approach to the written tests.	Secondary	Free	iPhone
Motion Math		Secondary	Paid	iPhone
Motion Math HD		Primary / Secondary	Paid	iPad
Multi-Tables HD		Primary	Paid	iPad
Multiplication & Division Flash Action		Primary	Paid	iPad
My first weighing exercises HD		Primary	Paid	iPad
MyCalculator Pro - Plot graphs with a single touch!	Innovative 2D and 3D one-touch graphing calculator. Move, rotate, and pinch 2D and 3D graphs in real-time! Create animated plots by plotting functions in time. With a single touch find the maxima, minima, and zero points on a 2D function graph. And store and recall answers for later use.	Secondary/ HiEd	Paid	iPhone/ iPad
NextCalc - Calculator for iPad	Elegant powerful calculator. Gorgeous interface and extensive calculating options. Useful notes can be added, which include calculations and can be highlighted, and shared along with calculations. Store results in separate memories. Unit conversion, advanced calculation functions, customizable look and notations. Functions can be combined, giving a versatile tool for everyday or scientific calculations.	Secondary/ HiEd	Paid	iPad
NineGaps		Primary	Paid	iPhone

Number Line	<p>A visually imaginative approach to learning fractions, decimals, and percents.</p> <p>The player orders equivalent fractions, decimals and percents on a number line, dragging circles with either a percent, decimal or fraction onto a number line in the correct sequence! Scores based on speed, plus points for correct placement, minus scores for error! Forces you to think fast!</p>	Secondary	Free	iPhone
Park Math - by Duck Duck Moose		Primary	Paid	iPhone
Park Math HD - by Duck Duck Moose		Primary	Paid	iPad
Physics 101 Calculator		Secondary	Paid	iPhone
PocketCAS pro for iPad	<p>A computer algebra system - in your pocket.</p> <p>Solve complicated mathematical problems quickly. Swift and easy inputting of formulas, and contextual help covering more than 500 functions. Calculate symbolic derivatives and taylor series expansions, compute symbolic integrals, simplify expressions, and use the integrated function plotter to visualize formulas. Easy graphing of cartesian and polar functions.</p>	Secondary/ HiEd	Paid	iPad
PocketCAS pro for iPhone	<p>A computer algebra system - in your pocket.</p> <p>Solve complicated mathematical problems quickly. Swift and easy inputting of formulas, and contextual help covering more than 500 functions. Calculate symbolic derivatives and taylor series expansions, compute symbolic integrals, simplify expressions, and use the integrated function plotter to visualize formulas. Easy graphing of cartesian and polar functions.</p>	Secondary/ HiEd	Paid	iPhone
PopMath Basic Math	<p>Pop the bubbles - learn to add!</p> <p>Bubbles appear floating on the screen and your goal is to pop each pair. For example, one bubble says "7" and another says "3+4". Simply touch one bubble and then the other to pop them both! Choose between addition, subtraction, multiplication and division. New levels increase numbers!</p>	Primary	Paid	iPhone

Quick Graph	A powerful, high quality, graphic calculator. A simple, yet intuitive interface that makes it easy to enter and/or edit equations and visualize them in mathematical notation. Capable of displaying explicit and implicit (opt) equations as well as inequalities (opt) in both 2D and 3D, in all standard coordinate systems: cartesian, polar, spherical and cylindrical.	Secondary	Free	iPhone/ iPad
Regression Calculator		Secondary/ HiEd	Paid	iPhone
Rocket Math		Primary	Paid	iPhone/ iPad
Roman Numerals	Convert Roman to Arabic numerals, and vice-versa! Useful for building dates, gravestones, and historical reading. Just type in the number and press convert. Easy to use Roman keyboard, and preferences for display of Roman numerals, in numerical or alphabetical order. Copy and paste numbers in from articles and documents.	Secondary	Free	iPhone
Sans Livre		Secondary	Free	iPad
Silly Numbers		Primary	Paid	iPad
Simple-Math Pro	Nicely designed app, encouraging training your mind to do math. Additional, subtraction, multiplication and division, in three difficulty levels. Just pick a character, topic, and level to start playing. Play with and without time limit, with detailed statistics and lists of all your answers. Child-oriented design, attractive and game-like.	Primary	Paid	iPhone

Soulver	<p>Far more elegant than a traditional calculator. Soulver presents the entire problem, and the answer. Students have the facility and accuracy of a simulated physical calculator, with the potential for interaction and editing of multiple lines. Lines can be labelled, enabling comparison of different scenarios. And problems can be saved, Simple and intuitive: the flexibility of a spreadsheet, with the rapidity of a calculator.</p> <p>Features include: - Currencies, stocks, indices... - All the standard conversions built in for distance, time, weight... - All the standard mathematical functions built in... - Calculation in hex and binary... and many more...</p>	Secondary/ HiEd	Paid	iPhone

<p>Tam & Tao in Numberland HD - Learn numbers with Montessori</p>	<p>Twins Tam and Tao take your child to Numberland - 10 beautifully animated worlds. The child travels through a jungle, a city, the ocean -each with a captivating soundtrack. In each scene the child can:</p> <p>See how to write a number, hear its name, and count objects Practice writing numbers on a digital notebook using color pencils Learn to count using Montessori material such as number rods and spindles</p> <p>Children can explore the adventures for themselves, respecting the Montessori principles of autonomy and self-confidence to build a firm foundation in number and counting.</p> <p>A serious yet fun application. Available in English, French and Spanish.</p>	<p>Primary</p>	<p>Paid</p>	<p>iPad</p>
<p>Time, Money & Fractions On-Track</p>	<p>A child-friendly approach to basic calculation and number areas. A focus on interaction - in the time section, children manipulate the hands of a clock. In money, they maneuver coins into a bank, identifying the values and how to count them. And for fractions, they divide the pie! Audio guidance, and fun game sections.</p>	<p>Primary</p>	<p>Paid</p>	<p>iPad</p>
<p>Times Tables</p>	<p>Learning times tables can be fun! Compete with friends and family, or play multi-player games! Various levels of difficulty, progress tracking, highest scores, and the program tracks all your child's answers, so you can see how well she or he is doing, and which tables they find more difficult.</p>	<p>Primary</p>	<p>Paid</p>	<p>iPhone</p>

TouchPlot	A powerful, many-featured grapher. User-defined, easy-to-manage libraries of functions. Representative curves of functions with a focus on accuracy and speed, with several modes for inspection (zeros, extrema, intersection and values, definite integration). User-defined constants with sliders to observe how a curve is changed by a parameter, and wide-ranging coverage of function categories.	Secondary/ HiEd	Paid	iPhone
Triangle Solver		Secondary	Free	iPhone
Ultimate Times Tables	Good for elementary school students who have just started with math. Colorful interface and different options make it a fun and interactive way for children to learn - you can set to regular test, multiple choice, factor test, or beat-the-clock! "Where should I improve?" suggestions button focuses learning for best results!	Primary	Paid	iPhone
Unit Conversion - Converter and Calculator	A fast-working app for swift conversions. 16 different unit categories supported. Units are sorted by frequency of usage, the units most often used show up at the top of the list, in the attractive and functional layout. Programmable buttons make it possible to access your favorite units even faster.	Secondary/ HiEd	Paid	iPhone
